

Road Logistics

Go beyond traditional transportation with LTL+ shipping solutions

Experience hassle-free less than truckload shipping with our LTL+ service across the United States and Canada. Discover how instant, transparent quotes, intuitive digital tools, expert support, and predictable competitive pricing can make your deliveries more reliable.

LTL+ removes your biggest roadblocks

Shipping challenges—from confusing rate quotes and misclassified freight to unpredictable costs and a lack of visibility—disrupt your business. LTL+ by Kuehne+Nagel is designed to address these common pain points with smart logistics solutions. By removing manual work and improving delivery performance, LTL+ frees up your time to focus on your core priorities.

Quoting and booking with no surprises

Say farewell to slow, confusing quoting and unpredictable shipping costs. With LTL+, you get fast, clear access to rates that fit your unique shipping needs. Simply enter your shipment details to instantly receive multi-carrier quotes, allowing you to compare options side by side within the portal.

Easily integrate quoting into your systems or e-commerce platforms using straightforward application programming interface (API) connections. You only see carriers that match your requirements for informed and confident decision-making.

Book directly from the quote results using automated workflows, such as stored shipper profiles and convenient dropdown selections, reducing errors. Bookings are sent directly to the carrier's load board to optimize pickup scheduling and minimize delays.

With Kuehne+Nagel's buying power, you can enjoy competitive rates, transparent rules, and annual lock-in pricing for better forecasting and protection from market volatility.

Take the complexity out of NMFC* classification

*NMFC: National Motor Freight Classification

When you're experiencing miscalculations, billing discrepancies or operational inefficiencies, LTL+ specialists offer a complimentary consultation to set you on the right path. Take advantage of expert NMFC reviews, impact analyses of changes or support to build a freight class library.

- ✓ **Precise rate quoting**
- ✓ **Fewer billing errors**
- ✓ **Improved bill of lading descriptions**

All leading to smoother shipping operations.

Seeing the entire road journey

Uncertainty caused by limited shipment visibility can lead to missed deadlines and lost opportunities for your team and customers. Our LTL+ portal delivers integrated transparency at every stage, using electronic data interchange (EDI), APIs, and shareable tracking URLs.

You and your stakeholders have access to the same real-time updates, including visibility for inbound, outbound, and drop shipments. Proactively manage expectations, build trust, and boost reliability—reducing support calls and increasing customer satisfaction with every shipping experience.

Smart decisions start with reliable information

Imagine having accurate, up-to-date freight insights at your fingertips. With centralized access to long-term freight data and analysis, you can plan, control costs, and optimize your road logistics.

Intuitive dashboards transform data into clear visuals for better decision-making. Your freight is easier to manage with customizable report and multi-year online document archiving.

Dedicated support from experienced analysts ensures you stay ahead of industry trends. Quarterly business reviews and strategic recommendations help you forecast, select the best carriers, and thrive in a competitive market.

Road Logistics

Efficient claims for maximum recovery

Managing LTL freight claims shouldn't be overwhelming. Our dedicated claims portal ensures a straightforward process—no complicated paperwork or long waits. Certified professionals with legal expertise handle your claims in compliance with industry-leading standards, providing timely status updates and reducing your workload. Expect faster resolutions and a greater success rate without unnecessary stress.

Total control of inbound shipments

Take charge of your incoming freight with our supplier portal. Select the carriers your vendors use to ensure your preferred processes are in place, eliminating hidden costs and delays. Track deliveries and respond quickly to issues with shipments visible in real-time.

Suppliers book shipments with your approved carriers without seeing your negotiated rates, ensuring controlled inbound freight and predictable costs.
